Air transport is regarded as the only means of transport in those areas which are not easily accessible to other modes of transport. It is therefore accessible to all areas regardless the obstruction of land.

FAST TRANSPORT

Air transport is the fastest mode of transport and therefore suitable carriage of goods over a long distance requiring less time. There is no substitute for air transport when the transport of goods is required urgently.

STANDBY & READY

On standby and ready to respond to locations within Australia, and South Pacific with our fixed wing aircraft and highly trained medical crews, using state of the art equipment we are the fastest most versatile Non critical patient air transfer company to service this side of the Globe.

**THE EASIEST SELF LOADING
SYSTEM THAT PACKS AWAY
AND IS TAKEN TO ALL REMOTE
SITES FOR EASE OF LOADING.**

AIR OPERATORS CERTIFICATE

We hold Air Operator certificates for the following country's, which allows us to operate within either country without local restrictions for foreign non-local operators. Australia, Papua New Guinea, New Caledonia, Fiji.

HIGHLY TRAINED PERSONNEL

Nurses are trained and integrated into the fixed wing medical environment. All medical and nursing staff are fully indemnified for domestic and international retrievals.
